**Dates to Remember:**

9/7 – No School – Labor Day

Our first week at school was a success! The students are doing amazing with new routines and procedures each day, and learning more about each other.

Next week, we are going to review math and reading kindergarten concepts. We will start first grade science, social studies, and handwriting.

Please continue to send 2 masks to school each day. It is very hot & we definitely need to exchange masks in the middle of our day.

Thank you for your patience and support with the digital academy as I work through some of the technical challenges.

Please see the reverse side for a note from Coach Cotter.

Word of the Week (WOW)

ecstatic
