

Weissler Weekly

For the week of January 25th, **2021!**

-Announcements

Math HW Reminder

Please remember that math hw needs to be done before the next day's math lesson. We will continue to try not to have math hw over the weekends and I will specify certain problems to complete if the HW is too long. HW is 20% of the math grade.

Spelling HW Reminder

Please remember that Spelling HW (as well as the reading log) needs to be done and turned in on Fridays. If you are in class, please turn in your HW to the in-class hw bin. HW is 20% of the ELA grade.

Participation/ Classwork Grades

We are reaching the second half of the school year; a few expectations are changing regarding our classwork grading policy. We will begin to be graded slightly differently with quality, completion, and effort in mind. (Previous participation grades were based upon if the student was working and following directions.) If we are simply reading and discussing in a class I will be looking for an attempted effort to be involved or follow along. (I am not expecting students to volunteer for every question.) Participation/Classwork is also 20% of each subject's grade.

Food Drive

Please bring in cans and non-perishable items to help out with our 100th Day Food Drive.

Reading Comprehension (Attached to this Newsletter)

We will begin reading comprehension quizzes this week . These will be short passages followed by 2-3 questions to show understanding. You can help prepare your child for these quizzes by asking follow up questions to their daily reading practice. We will send home one reading comprehension practice each week; these can be completed any time during the week and turned in with the reading log. On the day that a student completes the reading comprehension they may write that in for their log instead of additional reading.

Essential Questions

What we are covering this coming week...

Math- Chapter 7 Understand Place Value to 1,000

Luke Goes to Bat (Realistic Fiction) Sequence of Events (RL.2.2) Formal and Information Language (L.2.3a) Antonyms (L.2.4a) Story Paragraph (W.2.3) Words with ar (L.2.2d)

- Long i (i, igh, ie, y)

1. night
2. kind
3. spy
4. child
5. light
6. find
7. right
8. high
9. wild
10. July

Word of the week-overcome (verb)-succeed in dealing with (a problem or difficulty).

Healthy Habits to Help Prevent Sickness

Avoid close contact with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too.

If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness to others.

Cover your mouth and nose with a tissue when coughing or sneezing. It may prevent those around you from getting sick. Flu and other serious respiratory illnesses, like respiratory syncytial virus (RSV), whooping cough, and severe acute respiratory syndrome (SARS), are spread by cough, sneezing, or unclean hands.

Washing your hands often will help protect you from germs. If soap and water are not available, use an alcohol-based hand rub.

Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

Clean and disinfect frequently touched surfaces at home, work or school, especially when someone is ill. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food.
