

Weissler Weekly

For the week of April 5th, **2021!**

-Announcements

Social Studies Poster Project

We are finishing our poster projects this week in class. Each student has their own country and 7 topics that they have researched. Please check in with them regarding their progress to see if they may need some additional time or help putting their information on their posters. These posters with 7 topics covered will be turned in on Monday.

Homework Folders

Homework folders need to stay clean and free of clutter. Please make sure you are checking students folders. Daily homework is checked in class and then returned each day, there is no need to keep math or spelling in our folders for the entire week. Only the reading log and stamp sheet will be turned in each week. Currently some students may have their social studies project in their homework folder if they wish to work on it at home.

Math Practice/ Sight Words

As we are getting closer to the end of the year we cannot lose focus on the basics. If you have flashcards with basic math facts please have your student practice at home on days with little to no homework. I will be adding a section to our stamp sheets where you can record any amount of time they practice each day.

Reading Log Change

This week we will be changing the reading logs to have one weekly summary rather than a daily question. The summary to start should be a full paragraph on what they read this week (4 sentences.) We will eventually add to our summaries as we get to the end of the year. If a student reads several stories or books throughout the week they may choose one to write about in their summary.

Our HLA fundraiser

We are raising funds for new picnic tables! We have already raised enough for 11 new picnic tables. Thank you everyone for your help!

Essential Questions

What we are covering this coming week...

Math- Chapter 12

Solve Length Problems

ELA-The Mysterious Tadpole (Fantasy)

Story Structure (RL.2.5, RL.2.7) Conclusions (RL. 2.1, RL.2.7) Multiple Meaning Words (L.2.4a) Response Poem (W.2.1)**Words with oo, e w, ou (L.2.2d)**

Science-Unit 7 Energy

Spelling Words

Words with oo, ew, ue, ou

proud

crew

smooth

threw

house

soup

balloon

choose

news

ground

Word of the week- wisdom (noun)-the quality of having experience, knowledge, and good judgment

Healthy Habits to Help Prevent Sickness

Avoid close contact with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too.

If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness to others.

Cover your mouth and nose with a tissue when coughing or sneezing. It may prevent those around you from getting sick. Flu and other serious respiratory illnesses, like respiratory syncytial virus (RSV), whooping cough, and severe acute respiratory syndrome (SARS), are spread by cough, sneezing, or unclean hands.

Washing your hands often will help protect you from germs. If soap and water are not available, use an alcohol-based hand rub.

Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

Clean and disinfect frequently touched surfaces at home, work or school, especially when someone is ill. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food.
