

# Weissler Weekly

For the week of August 23rd, 2021!

## -Announcements

### Morning Mile news

We have officially started “morning mile” and are counting laps using paper slips. If your child would like more laps, drop-off begins at 7:00.

### Yoga news

We will be having yoga each day. All students need a yoga mat please. We will be focusing on controlled movements as well as breathing/ focusing exercises.

### Art News

Beginning year with rules and procedures; some free draw during discussion.

### PE News

This week we are continuing to reinforce the policies and procedures we went over last week. We are also beginning to work on fundamental athletic skills which we will continue to build on in the next couple of weeks as we transition to our core sports units.

Check calendar daily for lunch menu

No Volunteers or visitors until further notice

### Homework

-On a normal day, students may have math homework if we did not have time to finish in class. -We will have daily spelling assignments that will be due on Fridays. -Students will still be asked to read for 15 minutes each day.

**\*Students will have spelling hw and a reading log starting Monday 8/23\***

Baseline Testing

### Spelling Words

No Official Spelling words

We will be practicing our spelling hw/ test next week using sight words.

### Word of the week- responsibility

(noun)-the state or fact of having a duty to deal with something or of having control over

## Healthy Habits to Help Prevent Sickness

Avoid close contact with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too.

If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness to others.

Cover your mouth and nose with a tissue when coughing or sneezing. It may prevent those around you from getting sick. Flu and other serious respiratory illnesses, like respiratory syncytial virus (RSV), whooping cough, and severe acute respiratory syndrome (SARS), are spread by cough, sneezing, or unclean hands.

Washing your hands often will help protect you from germs. If soap and water are not available, use an alcohol-based hand rub.

Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

Clean and disinfect frequently touched surfaces at home, work or school, especially when someone is ill. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food.
