Helping Hands 100 Day Project

Just a reminder...as a schoolwide community project, we are challenging all of our students to contribute at least five cans or boxes of nonperishable food that we, in turn, can donate to our local food bank. If everyone, including our teachers, participates, our school will have over 600 cans that will help to benefit our community!

Please help us reach our goal and contribute by Friday, January 27th!

The Week In Review

ELA: This past week, we covered author's purpose, adjectives, and the prefix "inter-."

SS: Students just began studying Ch. 2: Age of Exploration. A project will be assigned soon!

Math: In Ch. 9, we will study adding and subtracting fractions and mixed numbers with unlike denominators.

Science: We just tested on forms of energy in Unit 6. Unit 7 is on electric circuits, conductors, and insulators.

Word of the Week:

Our word of the week was "positivity." Positive thinking means making the most of potential obstacles, trying to see the best in other people, and viewing yourself and your abilities in a positive light. People who think positively tend to live healthier lives in general; they may exercise more, follow a more nutritious diet, and avoid unhealthy behaviors.
